

We do not recommend self-employed nanny contracts as:

- **Nannies are not generally considered as self-employed**
- **Self-employment leaves nannies vulnerable to exploitation**

However, if you do choose to be self-employed, please make sure to sign an independent contractor agreement with your employer.

It is your employer's responsibility to carry out an Employment Status check to confirm you are eligible to be self-employed for this role. This help protect you in cases of false self-employment (where you are being treated as an employee but paid as a contractor).
